The benefits of a stairlift from Handicare

Handicare Stairlifts has produced and installed lifts for more than 125 years and has many satisfied and happy users worldwide. Their innovations take care of the most comfortable, safe and whisper quiet stairlifts.

A Handicare stairlift from Handicare is not only convenient, but also beautiful and fits any house and interior by its huge range of seats, rails and colours. Top quality in all respects makes a Handicare stairlift a valuable asset for your convenience.

You will have independence with contemporary design and maximum safety in house for a price that will certainly appeal to you. With a one-off investment you will retain your mobility and be able to stay in your own home. Ad-hoc solutions like sleeping downstairs or moving house will become a thing of the past. A Handicare stairlift will give you comfort and safety and is a fine gesture to yourself and the people around you.

A perfect solution for every staircase

Handicare has a solution for every staircase. All Handicare curved stairlifts share the same typical features: easy to operate, whisper silent and functional design. With our different types of stairlifts we are able to place a Handicare stairlift in every type of house and provide a safe and comfortable ride up even the most complicated of staircases. The compact design allows plenty of space for other stair users.

Handicare Van Gogh
For the outside curve

Handicare Rembrandt
For the inside curve

Handicare Vermeer
For multiple floors

"My stairlift from Handicare fits perfectly in my narrow staircase and there is still enough walking space for other stair users. It's turned out really perfectly. And so simple to operate that I could use it right away. I'm very pleased with the silence and the comfort and feel once more safe and secure. It's something that I should have done years ago."

Seat features

1: Remote control

With light pressure on the fetch and dispatch buttons the lift is always within arm's reach.

2: Joystick

This easy to use control can be positioned on the left or right armrest.

3: Key switch

The key can be removed to prevent unauthorized use.

4: Safety belt

Fitted as standard for your protection and safety.

5: Rail colours

The rail is available in three colours to suit your décor. For an additional fee the rail can be finished in any RAL colour.

A seat for every interior

Handicare Stairlifts offers you the choice of different stairlift seats, each of them available in a range of colours. There's plenty of choice, in terms of both comfort and style to suit that of your home. Because convenience can look good too.

Elegance

The new Elegance seat is lightly padded and offers a harmonious combination of elegant design and sophisticated comfort.

Alliance

The faux-leather upholstery combined with the wooden framing give the Alliance seat its luxurious look. Truly a seat that matches every interior.

Classic

The best-selling Classic seat has an attractive leather grain effect finish. Made from durable, non-slip polyurethane, it is hard wearing and easy to keep clean.

Swiveling your stairlift seat

For save mounting and dismounting, your stairlift seat is able to swivel towards the staircase landing. This can be done manually by using the push down lever underneath the seat.

The Handicare Classic, Elegance and Alliance seats can also be fitted with the powered swivel option. This option will enable you to automatically swivel towards the staircase landing, operated by the joystick controls.

PHOTOSURVEY 3D

by Handicare®

Perfectly finished, 100% made to measure... and yet rapidly installed at your home. We will, after an informal visit, explain all the features of our stairlifts to you in detail.

Each Handicare stairlift is designed to suit your individual staircase. We use advanced PhotoSurvey technology to make accurate measurements and we have all the options available to ensure the best possible fit for your staircase.

Automatic folding hinge

To avoid any obstruction at the bottom of the stairs, e.g. where there is a doorway, an automatic hinged rail with safety system is available.

Space saving design

The armrests and footrest can be folded up easily. This way the clear space on the stairs and in the hallway is maximized.

Comfort features

Powered & illuminated footrest

For even more comfort and safety on the Classic, Elegance and Alliance seat, you can choose to upgrade your stairlift with the powered & illuminated footrest option. With this option you can fold and unfold the footrest with a push of a button. Moreover, the LED lighting illuminates the footrest at night, making it safer for other users of the stairs.

Active seat

The clever Active seat option makes sitting down or standing up from the stairlift seat much easier. The option works in much the same way as a riser chair. Just pull the lever and you can feel the gentle support that the Active seat offers you while getting in or out of the stairlift seat.

Option for narrow stairwells

Should you have a narrow stairwell or limited knee flexion, this option is the solution for you. The Turn & Go option combines the powered swivel function with a Classic, Elegance or Alliance seat that can move up and down the stairs at an angle of 70 degrees. Turn & Go equipped stairlifts can be installed on stairwells as narrow as 69cm. This could avoid the inconvenience of major building adaptations, or save on the costs of a through the floor lift.

VoiceConnect

Wouldn't it be nice to call your family or friends directly from your stairlift if you need them? With Handicare VoiceConnect, a communication device integrated in your stairlift, you can! In an emergency situation you can press the alarm-button, the system will now call the pre-programmed numbers and you can communicate via the stairlift.

Making everyday life easier

Handicare Vision: a 3D preview of a stairlift on your stairs

When it comes to stairlifts we want you to make the best choice possible. You can have a 3D preview of Handicare's stairlift range in the comfort of your own home, and see how each one would look in your hallway too, thanks to Handicare's Vision app. Vision is a special application we have developed to show you what a stairlift would look like on your stairs, and to help you make the right decision.

Quality and safety

All our new products are delivered with a comprehensive warranty.

A Handicare stairlift stands for high quality: quality in terms of safety, innovation, comfort and design. Furthermore, all our products are tested and approved by worldwide independent inspection services. This gives you the assurance that all our products meet the highest standards in terms of quality and safety.

Experience

Convenience serves people... and lifting equipment of Handicare has been doing just that for more than 125 years.

With technical perfection, intelligent solutions and safe applications, Handicare's innovations have provided not only greater comfort, but also more attractive stairlifts in your style and your taste.

Top quality in all respects make the Handicare stairlift a valuable asset for independence around the home. Many satisfied users experience that every day.
